### **SEMI-FINALS AND FINALS IN FITNESS AND ACROBATIC SHOW**

- **Finals** are organized in case of having nominations up to 20 in a certain category.
- **Semi-finals** round in case of having more than 20 competitors.

### **ADJUDICATION, EVALUATION**

The adjudication system is a combined system. Each routine is adjudged always by at least five properly examined and experienced international judges. These principles of the adjudication are the followings:

**Fitness Dance, Fitness Show, Acrobatic Show:**

**Technique: 1-10 points based on the difficulty of the elements presented,**

**Execution: 1-10 points for correct execution of elements, knees, spike, posture, etc.**

**Performance: 1-10 points for the show-like performance of the dance.**

In the fitness exercise, the difficulty and execution of the elements performed will be given greater weight in the evaluation.

**Avoid element repetition as it does not count as an additional technical point e.g. if there are three arabels in the routine, it should only be scored once, unless presented with different variations and element combinations, which can make the routine individual.**

### **Calculation: with skating system**

The skating system is a fair calculation system which well filters favoritism, because the final result depends on placement numbers decided by the majority of the judges. (If only one judge puts forward or back a competitor, it cannot influence the result.)

**For the preliminaries and semi-final rounds the so-called X (cross) system is used.**

The half of the competitors getting the highest points will get into the final.

### **Specification of FITNESS categories**

**In Solo there are 3 skill levels:**

**FITNESS DANCE (Basic level)** – just a few elements in a dance choreography (10-15 elements are recommended in a dance choreography)

**FITNESS SHOW (Medium level)** – more elements, more difficult elements (15-20 elements are recommended in a dance choreography)

**ACROBATIC SHOW (Top level)** – the routine should contain a large amount of difficult elements (more than 20 elements are recommended in a dance choreography)

The difference between solo categories is the number of elements and the difficulty level of elements – please see the details bellow.

**The stage is at least 12x10 m, covered by Fitness floor (tatami).**

**Music:** any music at own discretion.
